

Mateo Alado

(510) 543-1444 | aladomateo@gmail.com | [LinkedIn](#) | [Website](#) | [GitHub](#)

SKILLS

- **Languages:** C/C++, Python, JavaScript, TypeScript, Go, Java, SQL, HTML, CSS, R, Bash
- **Frameworks:** REST APIs, React, Node.js, Tailwind
- **Developer Tools:** Git, Github, AWS, PyTorch, Kubernetes, Supabase, MongoDB, Selenium, Pandas,
- **Core CS Concepts:** Software Engineering, DSA, OOP, APIs, Multithreading, AI/ML, Mobile Development

PROFESSIONAL EXPERIENCE

Open Source Freelance Software Engineer

Self Employed

August 2024 - Present

- Developed and contributed to **10+ public repositories** on CodeTriage and additional open source personal projects
- **Decreased development time by ~10%** while maintaining collaborative engineering and Agile development practices amongst a team of **20+ professional freelance engineers**

Teaching Assistant (CS)

California State University, East Bay

August 2025 - Present

- Supported and engaged an on-site class of **50 students** in hands-on instruction in Data Structures and Algorithms through supporting lectures and supplemental learning
- Collaborated with instructors to achieve an **~20% increase in test performance compared to previous semesters**

Lead Program Mentor (CS)

CSU East Bay MESA

August 2025 - Present

- Provided academic and career focused guidance and enrichment for a cohort of **4 freshman computer science peers**
- Achieved a **30% increase** in MESA professional development and networking seminars amongst new undergraduates within the CSU East Bay Computer Science program

PROJECTS AND ADDITIONAL EXPERIENCE

Login Credentials Encryption Utility (Python, Fernet, Symmetric Encryption, JSON, Cryptography)

- Built a **multi-layered symmetric encryption model** with Python and Fernet to ensure improved protection and privacy of local data held on **100+** user devices
- **Achieved a ~50% increase** in overall data privacy through doubly encrypted file contents and safety measures

Git Automation Wrapper Tool (C, Bash, Git, Process Control, Embedded Systems)

- Created an automation tool for streamlining Git commits and repository version control among a team of **12 engineers**
- Provided users **low level control** over process management resulting in an over **23% faster runtime performance**

Java-Based Education App (Java, Socket Programming, UI Design, Software Engineering, Software Architecture)

- Developed a **real-time education application** supporting up to **50+ concurrent clients** allowing users to generate and personalize course study materials based on learning style and course content
- **Reduced overall average latency to 1ms** by optimizing client-side and server-side interactions

Personal Website and Portfolio (HTML, CSS, JavaScript, Web Hosting, EmailJS, GitHub, REST API)

- Designed a sleek and modern web UI and UX with outreach to **1500+** industry professionals on LinkedIn and GitHub
- Integrated the EmailJS **REST API** to automate email responses resulting in a **35% increase in professional outreach**

EDUCATION

California State University, East Bay

December 2026

Bachelor of Science, Computer Science

Dean's Honor List

- **Relevant Coursework:** Advanced Data Structures and Algorithms, Object Oriented Design, Computer Architecture, Operating Systems, UNIX and Linux, Computer Networks, Software Engineering, Web Development, Mobile Programming, Automata and Computation, Discrete Mathematics, Linear Algebra, Statistics and Probability for Engineers
